

DMIAAB Subsidized Composters Available

In an effort to reduce the amount of solid waste from our communities, DMIAAB underwrites a composter program at a significantly discounted purchase price for residents of Durham and Middlefield. We have both food digesters and traditional composters available. Residents may purchase Earth Machine Composters for \$30 and Green Cone food digesters for \$60. These prices are 50% below the retail cost. Supplies are limited. To make arrangements for purchase, please contact the Transfer Station at 860-349-8702.
